

The Most Advanced & Qualified Dental X-Ray Device for Dental Professionals

# Rextar X : Simple, Safe, Smart

## **High Quality X-Ray Images**

- ✓ Highest specification for clear image
- ✓ Help patients to be comforted by faster X-ray
- ✓ Applicable not only for dental diagnosis, but also for forensics, disaster field and veterinary purpose.

## **Convenient Operation**

- ✓ Memory buttons reduce operation time
- ✓ Hundreds of images can be obtained from one full charge

### **Perfect Portability**

- ✓ Rechargeable battery allows mobility
- ✓ In-time checking during surgery
- ✓ Easy to operate and move
- ✓ Optional neck strap for secure & handsfree transition

### **Ergonomic Design**

- ✓ Weighs 2kg with battery
- ✓ Designed for one hand operation
- ✓ Stable grip
- ✓ Designed for user's safety

# How to choose the best X-ray device

### Technology for excellence in diagnosis

#### **Focal Spot**

Smaller focal spot enhances the ability to define the tooth structure and nerves more sharply.

Due to the 0.4mm focal spot, operators can acquire the sharpest and highest resolution of X-ray images.

Voltage & Current

70kV tube voltage increases efficiency of penetrating power to obtain a clear X-ray image in any case, and reduces retakes caused by weak voltage.

Moderate quantity of X-ray beams in 2mA along with 70kV voltage ensures superior X-ray images for clear diagnosis.

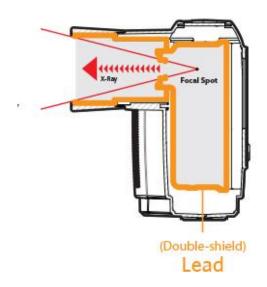

General Voltage/Current

**Rextar Series Voltage/Current** 70Kv / 2mA

### Safety

#### **Designed with Safety in mind**

Double lead lining protects operator's body, hand and other areas from X-ray radiation.

#### **Approved quality**

The Rextar's safety levels meet the international quality standard and certified by CE and KFDA. Rextar X's radiation dose is much less than those standards.

### Accessories

Rextar X Cone 1 (40mm) Cone 2 (140mm) Hand Strap Neck Strap Carrying case Operation & Service Manual Battery Adapter & Power Cord

### **Technical Specifications**

Model		REXTAR X
Input power	X-ray Unit	19 VDC 3.16A
	Battery Charger	100-240 VAC, 50~60Hz 1.7A
Output power		140W
Power Supply		11.1 VDC (Battery)
Battery		11. 1 V
Frequency		70kHz
Tube kV/Ma		70kV/2mA(Fixed)
Max. Deviation	kV	±4%
	mA	±10%
X-ray Tube	Model Name	D-041
	Inherent Filtration	Min. 1.0mmAl
	Focal Spot size	0.4 X 0.4 mm
Total filtration		1.5mm @ 70kV
Weight		1.6kg
